# 1. UNACMA in numbers

**300 members** of individual companies and local associations (“ACMA”)  
equal to **75%** of the turnover of the sector

**A monstrous effort to keep up!**

## 2. Political instability

9 Ministers of Agriculture in 8 years

All the agreements we had with the political and bureaucratic representatives are no more.

## 3. Machinery overhaul

After 5 years from the publication of the new law (the single text of the 1992 highway code stipulated that the agricultural machinery would have to be adapted) **the implementing decree has not yet been issued**, for now we only have extensions.

For **UNACMA**, which has built a part of its future on this issue, it is a great suffering.

## 4. Scrapping

With the machinery overhaul in mind, we asked the Ministry of Agriculture for a **contribution of 60 million euros a year for 5 years** to be able to scrap at least part of the 600,000 agricultural machinery out of the 2 million machines that are not in compliance.

## 5. However still...

... there is hope:

Our **Board of Directors** has increased from 20 to 25 members and represents all the regions of Italy. We maintain **excellent relations** with the past and present politicians and bureaucrats.

**The goal for 2020 is to address the profitability of the dealers who have a net profit of 1% against 3-9% of the manufacturers.**
