Impressive farmer demonstrations

The spear point “Education/ Entrance sufficient skilled mechanics” really succesful

- Collaboration with 14 schools, 3 associations and 2 commercial training centers
- Developed (with schools and skilled staff of members) 55 edited Learning Books for students: and sold over 4000 books
- Started new course for students/mechanics in Milking Techniques
- Starting with a Tim-Practor: promotor, connector between dealers and schools, coordinating innovative projects with students
- Growing number of new students; recent years an annual growth of 3%
- The brand Tim, supported by Fedecom, is further developed via a marketing campaign

Another spear point on our brand VA-Keur was succesful:

- 1 million inspections of VA-Keur (voluntary controls on safety of machines)
- Started a common campaign “Proper Arranged:put machinesafety on 1” for agricultural machinery with Organizations for Farmers, Contractors, Gardeners and Safety/Security
- Investigation of starting a digitized database of all machinery delivered

Fedecom started 2019 with structured member-visits

- To learn what's going on in the individual businesses
- To hear what are the interests, needs and questions of the members
- To know what are the strategies, the businessplans and actual results
- The experiences in some slights

Development of Business

Strenghts and Weaknesses

Andof course a lot more highlights
in the Climmar association activities report 2019
or www.fedecom.nl
