Congress 2025

*Turin was the first capital of Italy.
A city where Italian history has passed, rich in art, museums with
unique objects in the world, iconic industries and excellent food
and wine products.*

*In Turin, in October 2025, the European dealers of agricultural
and gardening machinery will meet, through representatives of
associations from 17 countries.*

*We look forward to seeing you in Turin, for a unique opportunity
for visibility and meeting, with a program that combines
conference activities, guided tours and a journey to discover the
Piedmontese culinary tradition artfully designed according to
the principles of slow food.*
