'The Harbour Club'  
a unique location for  
a unique restaurant!

### This is Rotterdam

Rotterdam is the second-largest city in the Netherlands and one of the largest ports in the world. Starting as a dam constructed in 1270 on the Rotte River, Rotterdam has grown into a major international commercial centre. Its strategic location at the Rhine-Meuse-Scheldt delta on the North Sea and at the heart of a massive rail, road, air and inland waterway distribution system extending throughout Europe is the reason that Rotterdam is often called the "Gateway to Europe".

## Location: Odyssee Room

The Odyssee Room located on the B-Deck takes its name and fame from the fact that Homer's story of the Odyssee is depicted in the ceramic relief that brings the walls of the dining area to life.
