- Analysis survey 2015:
 We see development in some countries
 but not in all
 in some cases we see misunderstanding of questions
- We adjusted the survey for 2016: some explanations are more concrete surveys were developed just in a few aspects
- We discuss integrating external experts for similar aspects

Hoping for a growing development

(hoping for a change in paradigma of daily work on every members-association's office)

Thanks a lot for your patrience!
