CLIMMAR Congress 5-7 October 2017

*How to speed up growth of Italian tractor's market*

The market is stuck about 18.000 machines for years  
To give an impulse to the market we dedicated ourselves to:

- INSPECTION → growth estimate +25%
- PSR (Rural Development Programme) → growth estimate +15%

The biggest agricultural associations (of farmers), often blocks all the activities of Ministries, Regions, etc. They frustrate every Contractor, Manufacturer and Dealer with this constant delays

*How we stimulated the growth of our own association*

- Positive effect from organization of Venice Climmar Congress 2016
- 9 Road Shows
- 3 National Fairs
- 6 Local Fairs
- Agreement with Bank, Insurance companies etc.

A lot of Big dealers are our members, but the most interested are the small medium-size dealers
